**Subject:** "The Towering Inferno"

---

Dear Saints

What a privilege to live during these interesting and exciting times! We believe most of you are aware of the "Phallic Church Tower" debate in the media.

Whatever your opinion on the issue might be: We have good reasons to believe that the media at large, and some newspapers in particular, are not treating the issue with integrity. When the secrecy of Freemasonry (which is intrinsically connected to the debate) is at stake, the traditional media war cry of "The public has the right to know!" seems to evaporate into thin air.

And, unfortunately, the majority of church members who had participated had done so in absolute ignorance and frivolity.

Concerning the issue of bringing the correct information and balance to the issue, we have GREAT NEWS:

Steve Worrall-Clare, ex-Freemason (97th esoteric degree), and now a born-again, sanctified believer in Jesus Christ, will be in our area soon, addressing the issue. He will zoom in onto the issue of modern day church symbolism and, where applicable, its connections to pagan worship and Freemasonry. Questions from the floor will be allowed.

Steve had been teaching in South Africa and abroad on the issue of Freemasonry for years. By way of his anointed ministry, scores of Freemasons and their families have been set free from the cursus that accompany involvement in this fraternity. Steve sincerely loves Masons (as does Christ!), but has been illumined by the light of Christ concerning Freemasonry.
