

Subject: A family in dire straits

Dear Saints

We do not normally publish requests for help on this network, but have decided to make an exception this time. We perceive the couple mentioned below as part of our ministry, as they had been facilitating PILTC courses in their area for the past two years.

On Monday 19/01/2004, Iain Semple's Toyota Venture got stolen in Woodstock while he was out on a job assignment. Iain is an electrician by trade, and all his tools and equipment to perform his trade were inside.

This incident also leaves Iain and his wife Inge, and their boys Callum & Joshua, without transport, as the vehicle also served as the family car. The vehicle was not insured.

Iain's work vehicle, an old bakkie which he uses to transport his workers, still runs, but the loss of the other vehicle had halved his ability to work and generate an income.

Iain & Inge being valued leaders in the Cape Town intercessory movement, we would like to appeal to anyone who could assist them during this trying times, by any means, to contact them on (021) 715 9538.

Please also pray for the family. They have been involved in a spiritual battle for some time.

Blessings!

Eben Swart
