

Subject: Update on Maria Engelbrecht.

Dear Saints

Two weeks ago we have asked you to pray for Maria Engelbrecht, one of our City's intercessors, who had been diagnosed with an advanced condition of leukemia (blood cancer). Here's the latest:

Maria had now received her first session of chemotherapy in Constantiaberg Medi-clinic. The Lord had been with her, withholding nausea and hair loss. Medically, everything is going according to plan.

Maria's husband, Derrick, is absolutely jubilant! According to him, the Lord had taken him and Maria to unprecedented spiritual heights during the past 14 days. It had been a time of growth, and breakthrough for them.

Derrick's specific prayer request: Please hold up Maria's spiritual "arms" in prayer (like Aaron & Hur did with Moses) to enable her to continue exercising spiritual authority over the sickness. At present, Maria is "standing" firmly.

Blessings!

Eben
