

Subject: Videos and DVD's on QoH available!

Dear Saints

The Babylonian Mysteries, through millennia, had been the single greatest conceptual opponent of the Kingdom of Heaven. Most Christians don't have any idea what this is all about.

Most of you would be aware of the fact that we had done a major teaching-by-pictures on The Queen of Heaven last month. These meetings were recorded, and have now been edited - so that we can make copies available.

These videos (or DVD's) will show you how the "secret power of lawlessness" had been "secretly at work" through the ages, and is currently in the final stages of releasing the "man of perdition" (or "man of sin") into the world. See how this mystery unfolds through the ages, see the Beast and its image, as well as its manifestations in our communities and churches. See the priesthood of The Queen of Heaven identified, as well as the ruling principality over Cape Town, and its representations revealed for the very first time! This is a MUST for pray-ers.

All in all, the 3 recordings feature more than 6 hours of teaching, as well as a brand new Prayer of Repentance and Renunciation - based on years of research.
