

Subject: Breaking the Yoke: Infiltration.

Dear Saints

During the past two weeks we had published the first two episodes of a three part series of the article "Breaking the Yoke."

This week we'll be looking at the last episode of this article - which I had finished more than a year ago, but was never released to distribute via this network. For the first time now, I had sensed the Lord urging me to make its content public.

I do not consider the identification of problem areas to be faultless, neither do I regard the suggested solutions as cast in concrete.

Each article represents a substantially shortened version of an elaborate teaching.

Your comments will be appreciated.

Enjoy!

BREAKING THE YOKE(Eben Swart (ctherald@mweb.co.za): 6 May 2004)

Over the past four years, research and progressive revelation had shown the following RELATED issues to be major problem areas in the Body of Christ in South Africa, and, to a great extent, worldwide:

1. Skew Foundations.
2. Misconceptions concerning Spiritual Authority and Covering.
3. Infiltration and Control by Secret Organisations.

Each week, we consider one of them separately. During the past two weeks we looked at "Skew Foundations" and "Misconceptions concerning Spiritual Authority." Here's the third one:

Infiltration and Control by Secret Organisations**The Problem:**

Diagnostic Spiritual Research has shown unequivocally that the Church in SA, since its inception in 1652, has never been rid of the yoke of Secret Organisations (especially Freemasonry).

Even the very first Church in SA had been planted by a Masonic Organisation, the DEIC (Dutch East India Company). This Company had appointed, and paid the first pastors of the Dutch Reformed Church (which had been the only church to be allowed at the Cape for 128 years since 1652). It also sat in on all church meetings and strictly controlled all church operations according to the Company Rulebook.

And since those early days, the Church in SA has never been without this yoke. Today, EVERY church denomination in SA has been infiltrated by these organisations, and is riddled with their vices.

By the grace of God though, some independent churches and their networks seem to have escaped the claws of Freemasonry.

(Although Freemasonry overtly existed only since 1717, it had been a covert organisation since the time of the Knights Templar (early second millenium). Its spiritual roots date back to shortly after Noah's flood).

What is Freemasonry?

Freemasonry is a secret organisation which operates under the guise of a welfare organisation, but is really (besides the Roman Catholic Church) the chief preserver of the occult knowledge of the Babylonian Mysteries, as portrayed predominantly in Egyptian, Roman and Greek mythology.

Its major doctrines focus on an enigmatic figure, Hiram Abiff, who, if investigated, turns out to be nobody else than the illegitimate son (Tammuz) of the first Babylonian king, Nimrod (Gen. 10:8 - 10). Nimrod and his wife and queen, Semiramis, were the founders of the Babylonian Mysteries and the occult knowledge on the earth, after the flood of Noah.

Many Freemasons (especially those in the lower degrees) are naively oblivious of the fact that they act as the very priests of almost every occult spirit known in the Western World.

The main controlling spirits in Freemasonry are BAPHOMET and the QUEEN OF HEAVEN.

Baphomet is a hideous, hermaphrodite being, which represents the occult, alchemical Kundalini powers of the decapitated head of John the Baptist, and is known amongst Knights Templar as "the Holy Spirit" or "the Green Man."

The Queen of Heaven is a "feminine" evil spirit, known in Freemasonry as Faith, Hope, or Charity (Jer. 17:18; 44:17 - 19, 25).

In SCOTTISH RITE Freemasonry, its 33 degrees represent the 33 vertebrae of the human spine.

During the initiation rituals of the first 3 symbolic (blue lodge) degrees, the evil Kundalini serpent spirit (based at the coccyx) gets activated. As the candidate then proceeds through the rituals of the rest of the 33 degrees, it progresses upwards through the rest of the vertebrae (known in Masonry as "Jacob's Ladder" or the "Tree of Life"). During this process, 7 chakras are opened up - for the Kundalini serpent spirit to eventually move to the top of the head. This opens up the so-called third, or spiritual eye.

At this point the Freemason becomes a Lucifarian, or illuminated one, who had achieved immortality - and has become a god himself.

In YORK RITE Freemasonry, this illumination is achieved during the initiation ritual of the top degree (Knights Templar degree) when the candidate sips pure wine (symbolic of blood) from a human skull - symbolising the Kundalini "life" which now resides in the candidate's skull or head.

As this "illumination" is the ultimate purpose of Freemasonry, EVERY Freemason, to a greater or lesser degree, is infected with the power of Kundalini, and is able to transfer it through kissing, touching, sexual contact and laying on of hands (See GUARDIANS OF THE HOLY GRAIL, by Mark Amaru Pinkham).

In our churches, many pastors, reverends, ministers, fathers, dominees and elders are members of Secret Organisations. These shepherds thus secretly serve as priests for the ancient demonic entities of Babylon, whereas they should rule against the land of Nimrod with drawn sword (Micah 5:5 - 6).

Hence, their disobedience leaves them very little or no spiritual authority. Consequently, these leaders implement in the Church the principle of the Evil One: Control and Subjection. Such leaders are the main cause for the prevalent presence and stronghold of Jezebel (an aspect of the Queen of Heaven) in today's Church.

Sadly, research also shows that the worldwide network of Masonic lodges are used extensively as the primary infrastructure which the Lawless One (2 Thess. 2:8 - 9) employs to usher in the New World Order - the end-time governing body which, according to Biblical prophecies, will be responsible for the persecution of God's people during the Great Tribulation.

The Solution:

Because of the thick demonic veil which blinds the spiritual eyes of members of Secret Societies, it is only by God's powerful intervention that they are able to see the evilness of their own organisation. (Most Freemasons are sincerely under the impression that they serve an excellent cause, and that the doctrines of Freemasonry assist them in becoming better people! Experience has shown that, when this paradigm gets challenged, the response is often hardly controlled anger - which is really the evil Kundalini serpent spirit raising its head). Hence, it is extremely difficult to convince deceived Freemasons in a cognitive way to turn away from their sin.

The most obvious solution would be that Church Leadership, who had brought this evil into the bosom of the Body of Christ, would publicly repent of their sin and turn from their

wicked ways. In the light of the above, it is highly improbable that this would ever happen. Until such time, what does the Bible tell us to do?

"Flee out of the midst of Babylon, and go forth out of the land of the Chaldeans; and be as he-goats [who serve as EXAMPLES and as LEADERS in the flight] before the flocks." - Jer. 50:8 (Ampl).

Five times in the Bible, the Lord speaks to His people (in other words, to Christians in churches - not to unbelievers!) and commands them to flee out of Babylon, unless they would share in Babylon's judgment (Jer. 50:8; 51:6, 45; 2 Cor. 6:17; Rev. 18:4). Please note that the Bible neither explicitly, nor implicitly, states that believers should remain in Babylon and "panel-beat" or "influence" it from the INSIDE. Anyone who would contend that this should be the solution, has a rather thin, if any, Scriptural basis for his argument. The Bible knows only one direction: FLEE - and save your own life!

How would one recognise Babylon in a church?

Babylon is something VERY specific. It is characterised by the word "MYSTERY," as well as IDOLATRY/ HARLOTRY (Rev. 17:5) which directly pertains to the Babylonian religious system of Mysteries which was introduced by Nimrod and Semiramis (See THE TWO BABYLONS, by Rev. Alexander Hislop).

Unfortunately, the evil domination and control of Babylon, as manifest in Freemasonry, are prevalent in the top echelons and structures of all our denominational churches today. If the Scriptural commands to get out of Babylon do NOT mean that Christians should flee from such structures to save their own lives, then what DO they mean?

When Christians spot priests of the harlotrous Mysteries in their leadership, and leave, where could they go to for fellowship?

The unbiblical church structure as discussed in Part 1 of this series (based on the foundation of pastors and teachers, rather than apostles and prophets), had been invented roughly 3 centuries after Christ, when the persecution of Christians had stopped under the Roman rule of Constantine the Great. Only THEN the concept of a "church building" (or cathedral!), headed up by a pastor, became established. Prior to that, for more than 300 years, the early church believers gathered in homes, synagogues, forests, caves and public open spaces for fellowship - a house church system.

We seriously encourage believers to take own responsibility, and to establish house churches.

How to start? Get a few Christian friends together, start a fellowship and pray at your home. That's a house church!

(Leaving a wineskin does not mean you're leaving the church - YOU are the church! Also, PLEASE NOTE: We are NOT recommending that believers leave churches because of imperfections. After all, ALL churches are imperfect. What the Bible commands us to do, is to leave BABYLON - the Mysteries and Idolatry. It is hard to justify Christian submission under a church leadership which is to some degree "anointed" by the Kundalini spirit!)

Comments:

The House Church System also makes a lot of sense in terms of counteracting the New World Order:

The New World Order is based on centralization: One World Government, One World Currency, One World Police Force, One World Language, etc. To get to this goal, every institution in society needs to be CENTRALISED.

As far as churches are concerned, the centralized structure of denominations suits the New World Order like a hand in a glove. It simply infiltrates the governing body, as well as the training institutions, and, using these as spingboards, start to dominate and control the entire denomination.

Furthermore, the current day church is known to consist of two different aspects: The Organism, as well as the Organisation. The Organism consists of believers, knitted together by love-relationships and guided by the Holy Spirit. The Organisation consists of the statuary structures, existing primarily for administrative purposes.

Now, the Masonic and Broederbond spirits are notorious for its cunning wielding of its power at executive meetings, whereas they are also notoriously uneasy with one-on-one relationships with radical, born-again believers. Executive meetings take place mainly in the Organisation part of the church, whereas one-on-one relationships are established in the Organism part.

Thus, the more we as Church can tone DOWN on our overhead structure (Organisation), and can tune UP on our living body (Organism), the less of these members of secret organisations we will harbour in our bosom. They will leave of their own accord.

Moreover, the history of nature has taught us that, when environmental circumstances change, smaller organisms survive much easier than the bigger ones. Dinosaurs become extinct, whilst insects survive.

One sure thing about the future is that changes in the church environment will occur at an ever-increasing rate. In order to meet and survive future challenges, it makes a lot of sense to transform from "dinosaur" churches to "insect" ones - creeping into every crevice of society.

The House Church System (although it has several other challenges) suits the above scenario perfectly. It has minimum structure, and maximum life. And it is completely decentralized.
