**Subject:** MP3s available on CD.

---

Dear Saints

Since we've made the **MP3 soundtracks** of the prayer course (PILTC) available as **free downloads** on our website about two months ago, hundreds and hundreds of these teachings have been downloaded by you and others all over the world. The feedback we are receiving from individuals listening to the audios is extremely encouraging.

But we realize that everybody doesn't have the **computer literacy** to download these teachings (although it is really easy!), and that many operate their internet through **dial-up technology** - which results in relatively **slow download speeds**. The MP3 files on our website can size up to 18 MB (2 hours of listening), which can take hours to download on a dial-up connection. This, despite the fact that we have chosen the absolute **minimum size** (16 bytes/second) MP3 format for the website files - just before the sound becomes tinny (Afr: blikkerig).

To solve this problem we have recorded these MP3s **on CD** - at 80 bytes/second, thus **5 times better MP3 sound quality** than the download files! These CDs can be played on any CD player which has MP3 capacity - also on any ipod, and are ideal to listen to while driving to work, doing the dishes, working in the garage, cleaning up the kitchen, etc.

The best part is the price:

ALL the available MP3 soundtracks of the ENTIRE PILTC (Prayer and Intercession Leaders Training Course) could be yours for a mere **R250-00** - for more than **55 hours** of listening in Afrikaans or English!

We present it as a set of 4 CDs (one course per CD) - in Afrikaans or English, in the usual black CD case and cover.
