Thorough teachings on the above topics are long overdue.

Please be sure to attend the sessions on the Blood Covenant. The sessions on Baptism and Hebrew Roots build upon the Blood Covenant and cannot be properly understood without such background. Since very few Christians possess any idea of what the Blood Covenant is all about, the specific aim of this teaching is to help such people to get a grasp on the Blood Covenant - in everyday language (as opposed to academic language).

No other topic raises as many enquiries to our ministry as the issue of Baptism. This is the most frequent type of email we receive.

In our Baptism teaching we intend to make the Biblical meaning of baptism, based on the Blood Covenant, crystal clear. We also intend to make crystal clear where the false baptism comes from, and why it is so prevalent in our society today.

We are privileged to have Marianne Peake, a counsellor with many years of experience in deliverance ministry (especially with water spirits), to teach on the role of water spirits in general, and specifically in the context of infant baptism.

Due to the average church member's ignorance on the Blood Covenant and many other issues, the Hebrew Roots Movement (HRM) is growing by leaps and bounds in SA. Last year, we've published a lengthy article on this movement on our webpage www.trumpetcall.co.za under "articles" - causing a major stir throughout SA. With the above lectures, we intend to do an even more thorough job - taking no prisoners.
